The way for industrialization in Tanzania

***lessons and experiences from China
and how B&R initiative will contribute to this.***

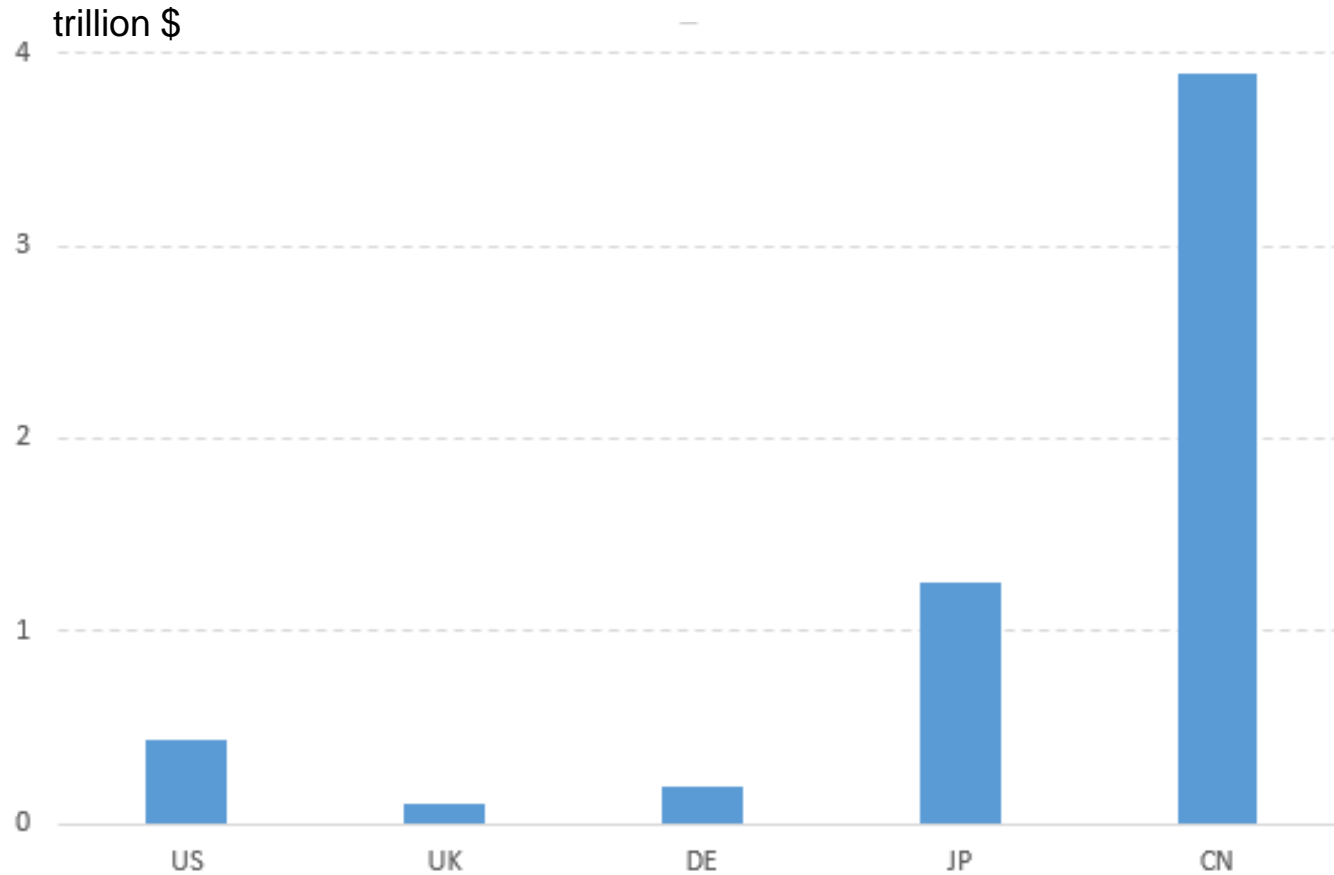

XU Qiyuan

The Belt and Road Initiative and the Industrialization cooperation between China and Tanzania
28th Nov,2018, Mwalimu Nyerere International Convention Center(JNICC) in Dar as salaam, Tanzania

- To launch the B&R I,
what is China's advantage? **Money?**

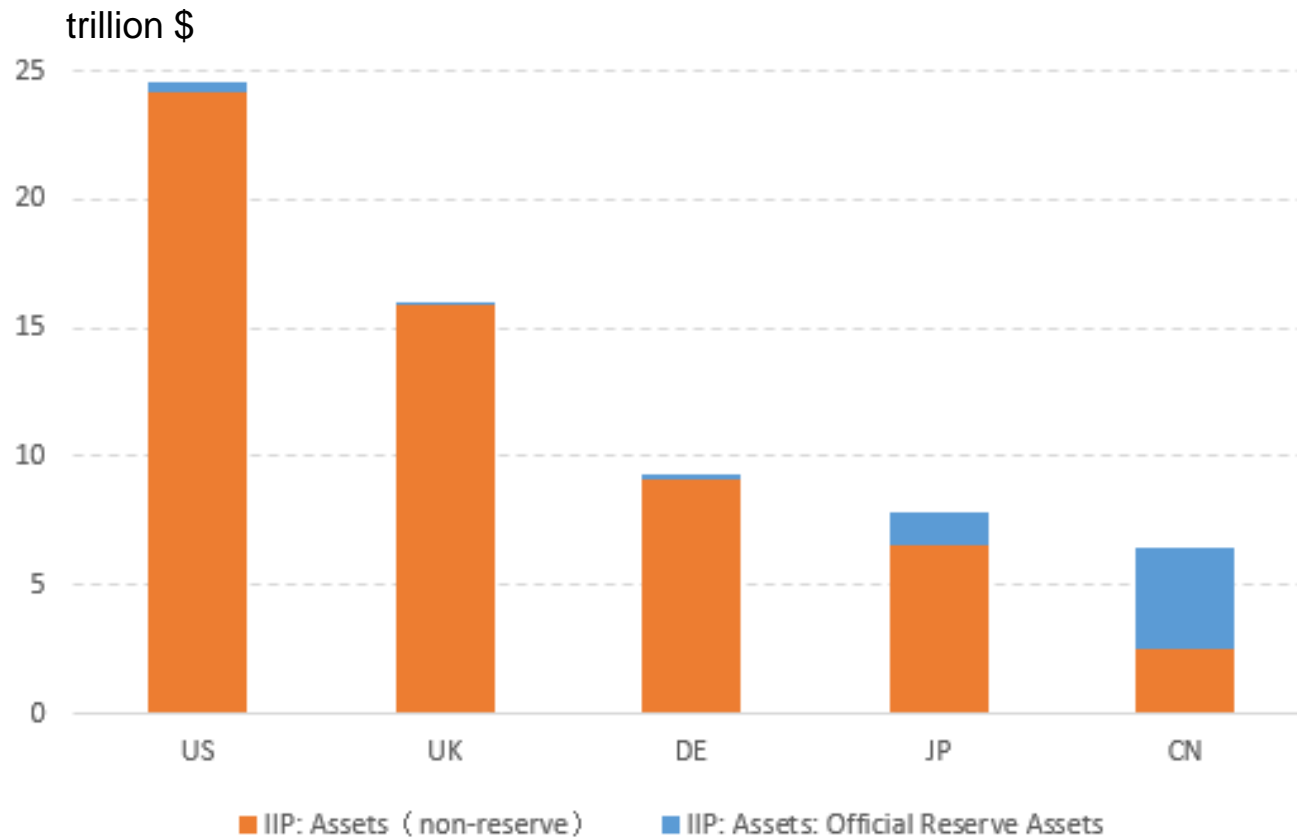

It seems “China has got a lot of money”

Forex reserve:

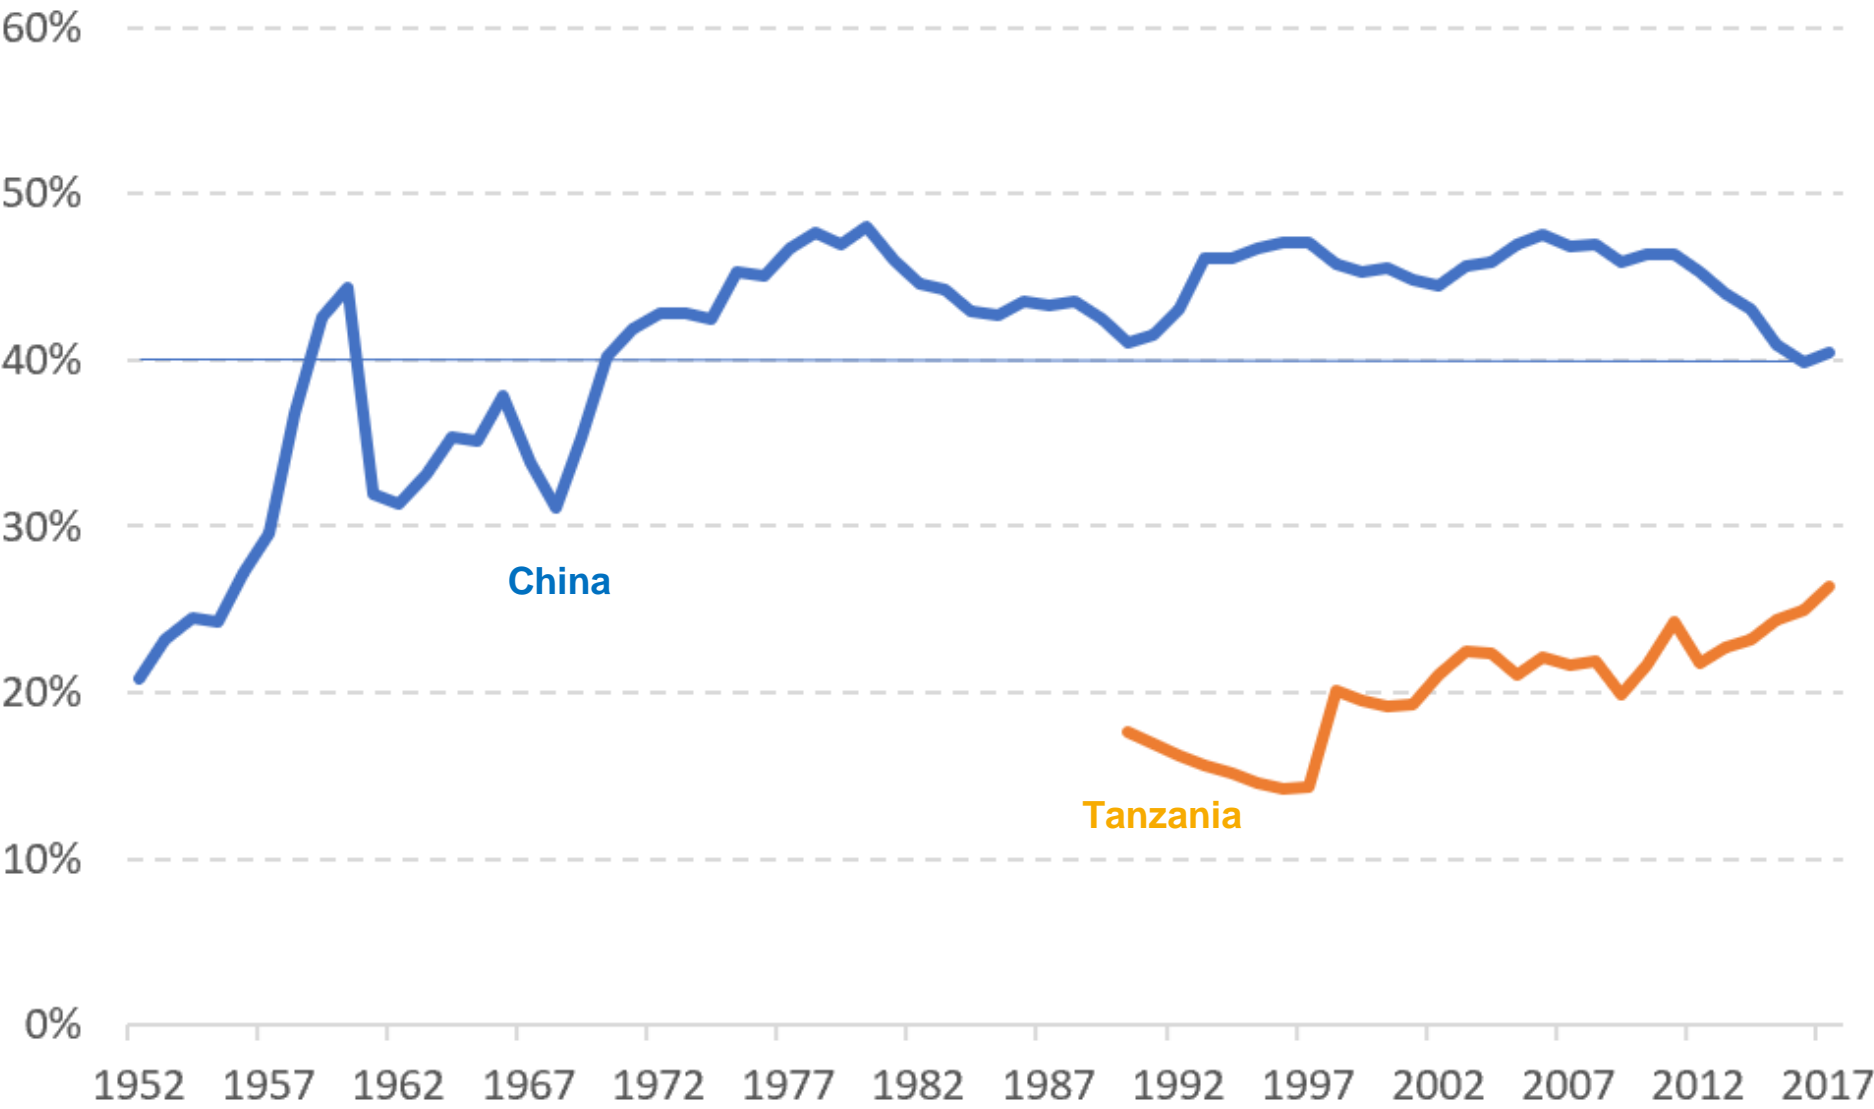

**“China has got a lot of money”
A misunderstanding.**

IIP: Total assets

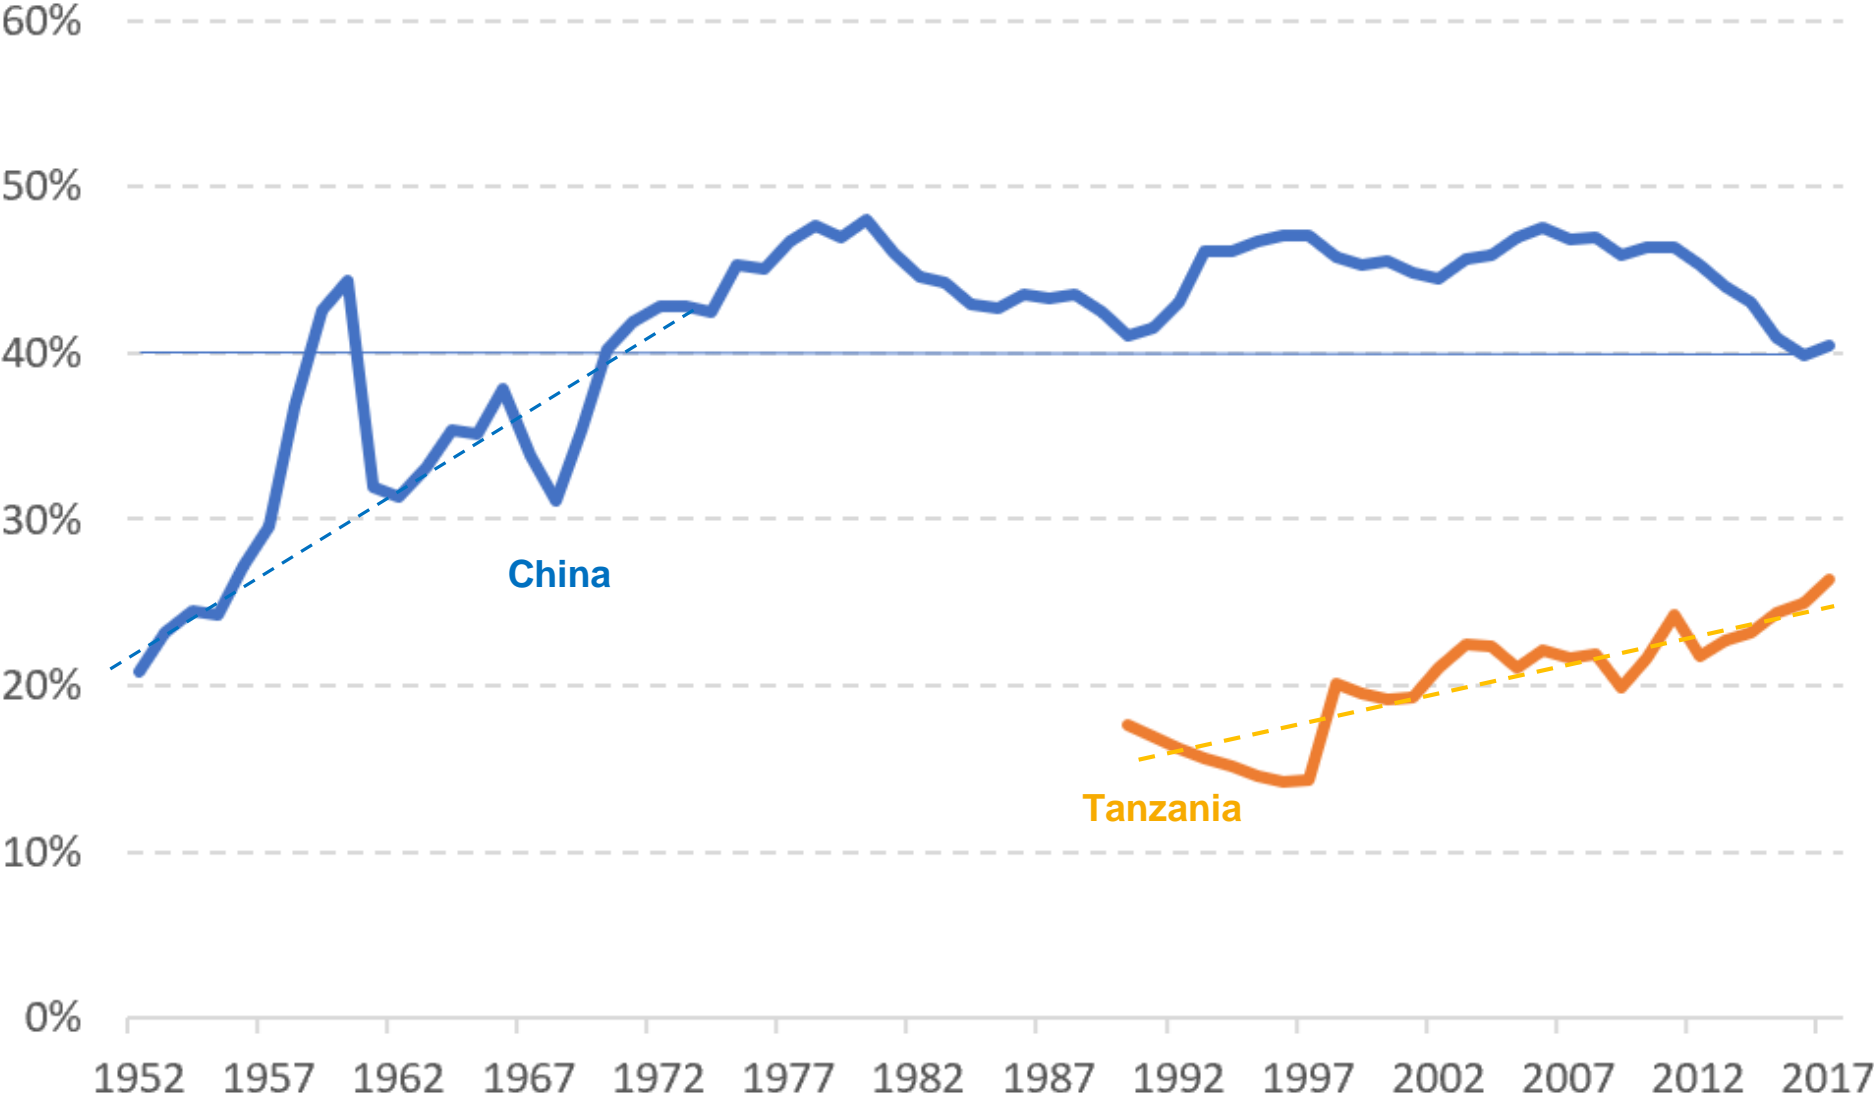

- To launch the B&R I,
what is China's advantage?
- If it is not money, what else?

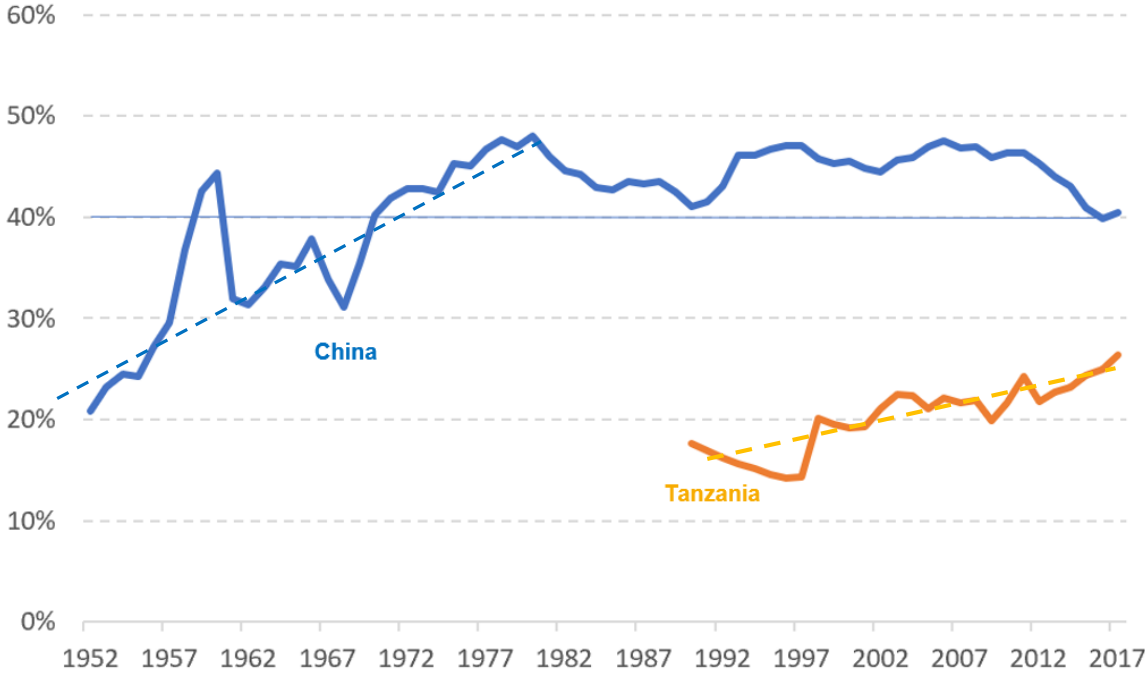

The proportion of industrial sector in total GDP: China and Tanzania

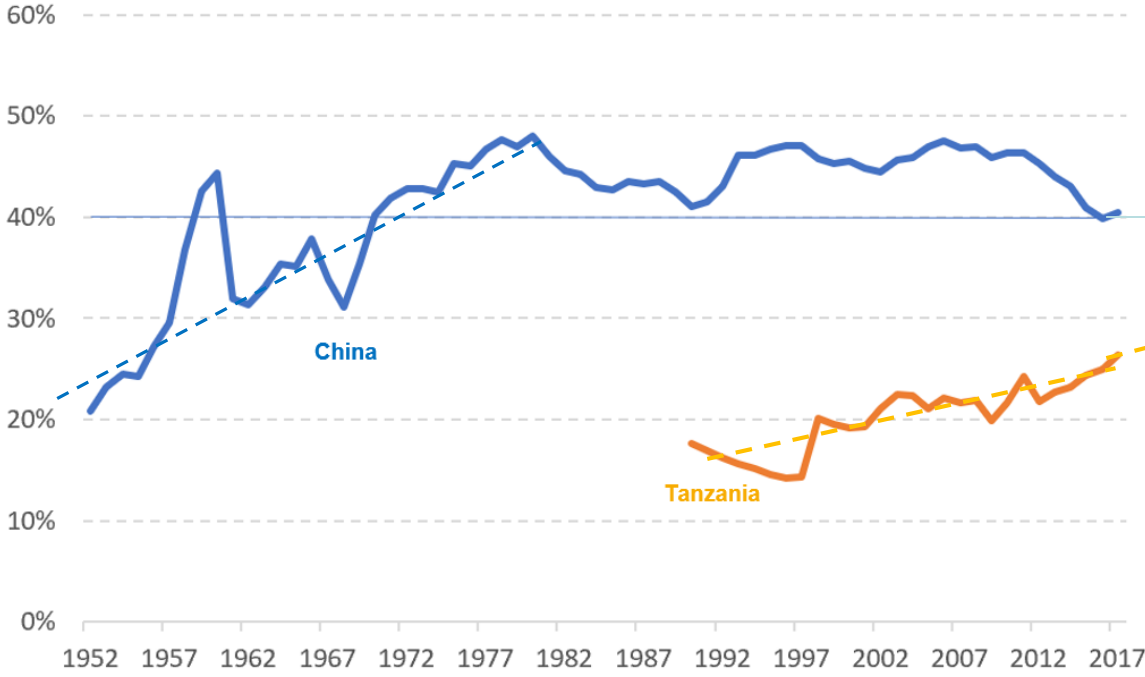

The proportion of industrial sector in total GDP: China and Tanzania

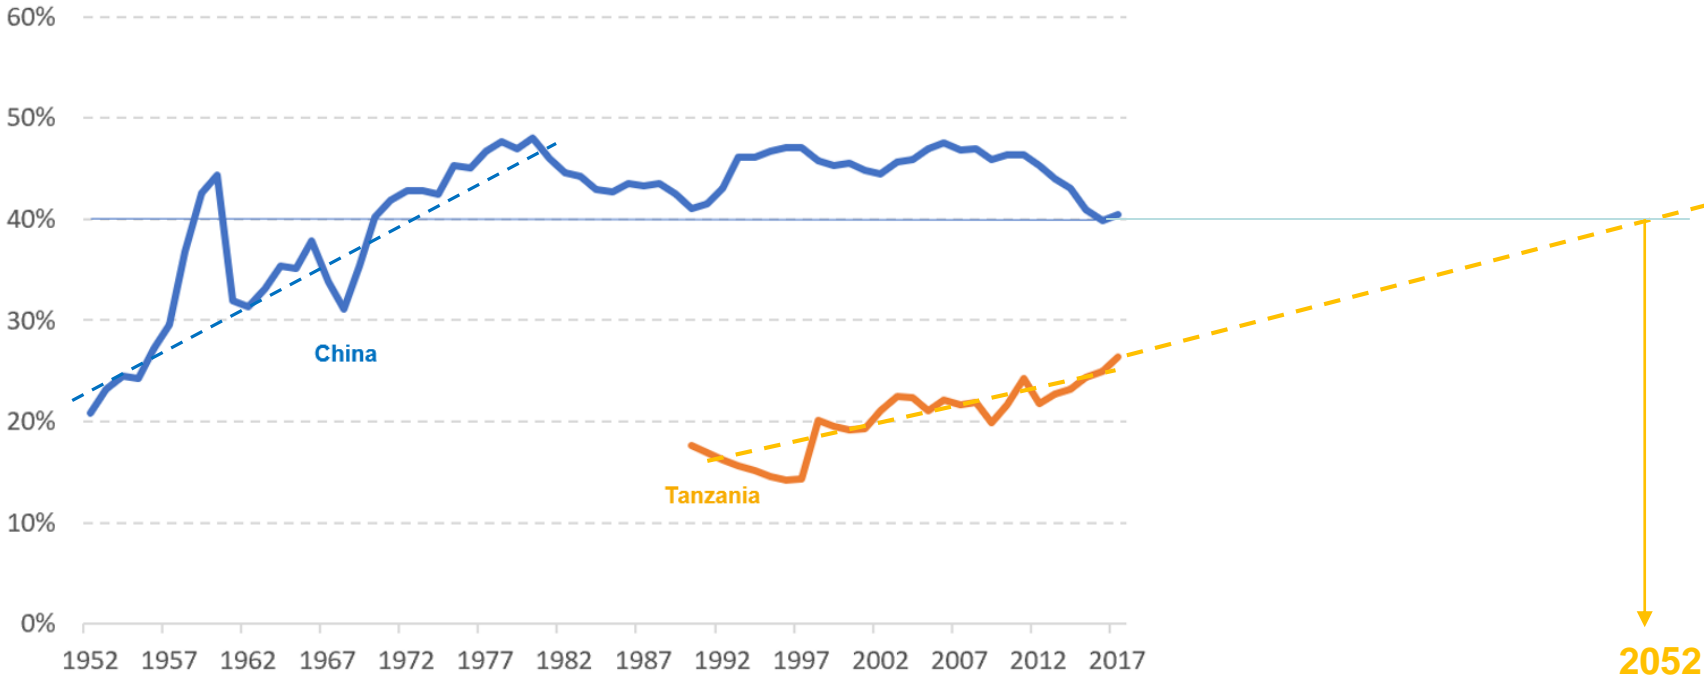

The proportion of industrial sector in total GDP: China and Tanzania

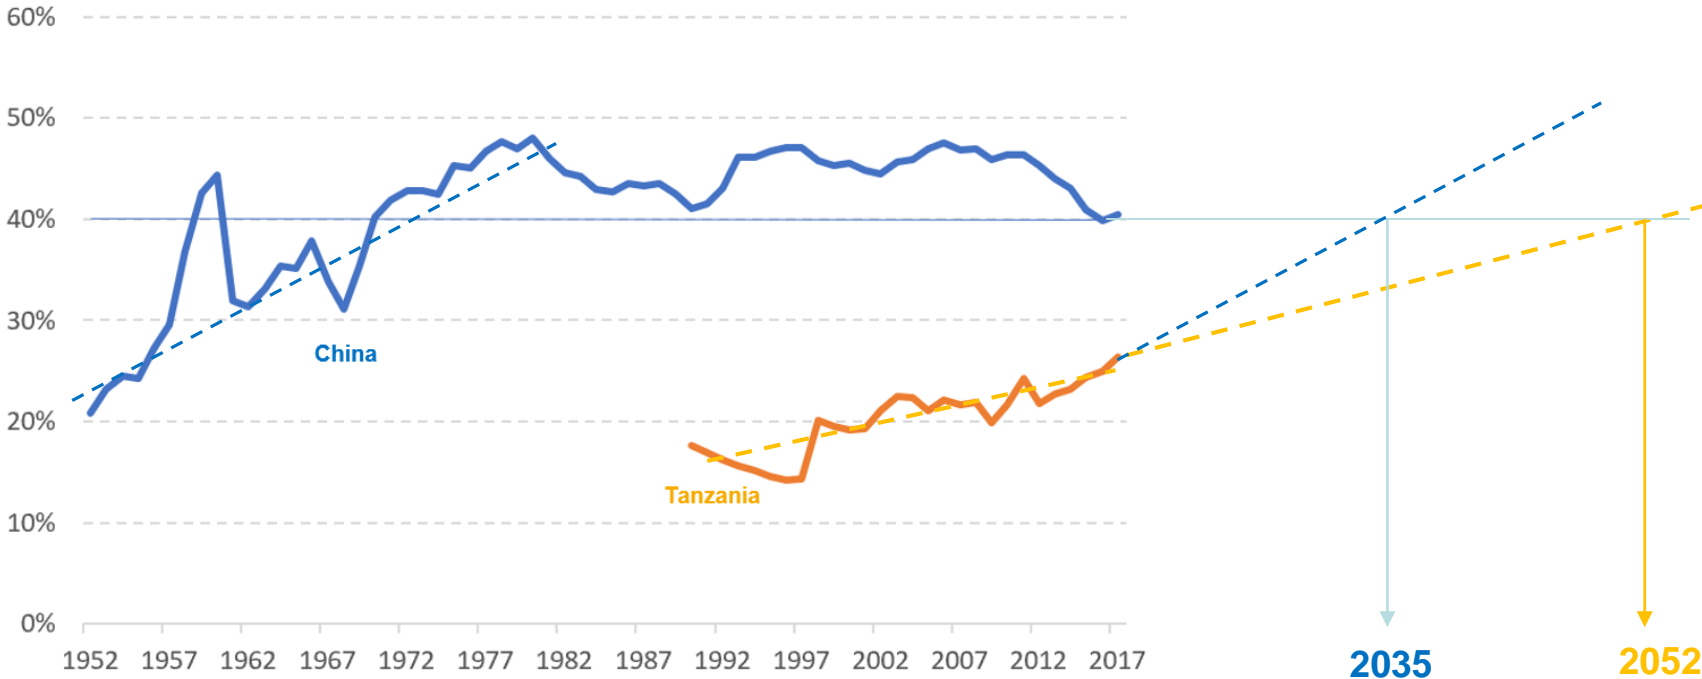

The proportion of industrial sector in total GDP: China and Tanzania

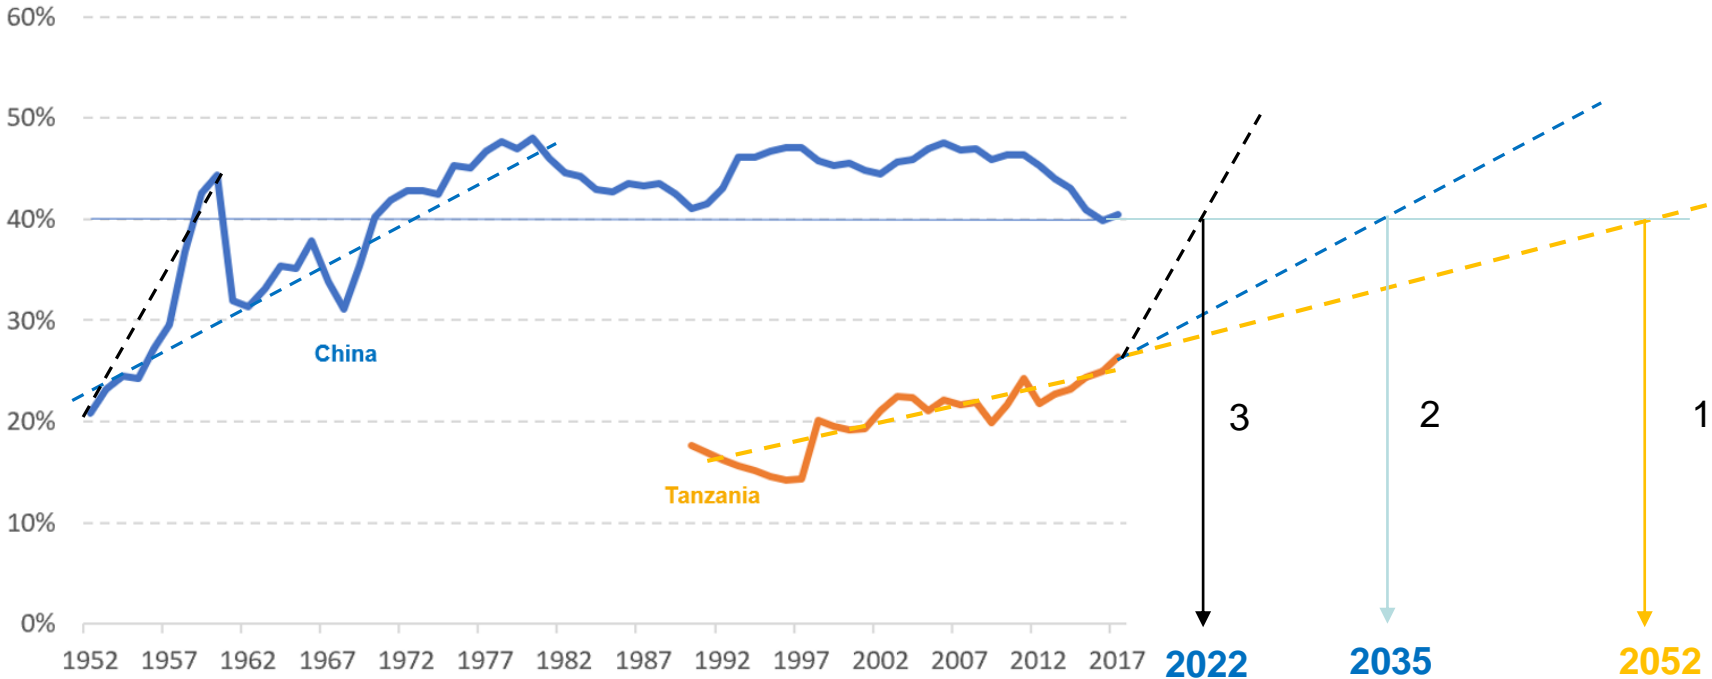

The proportion of industrial sector in total GDP: China and Tanzania

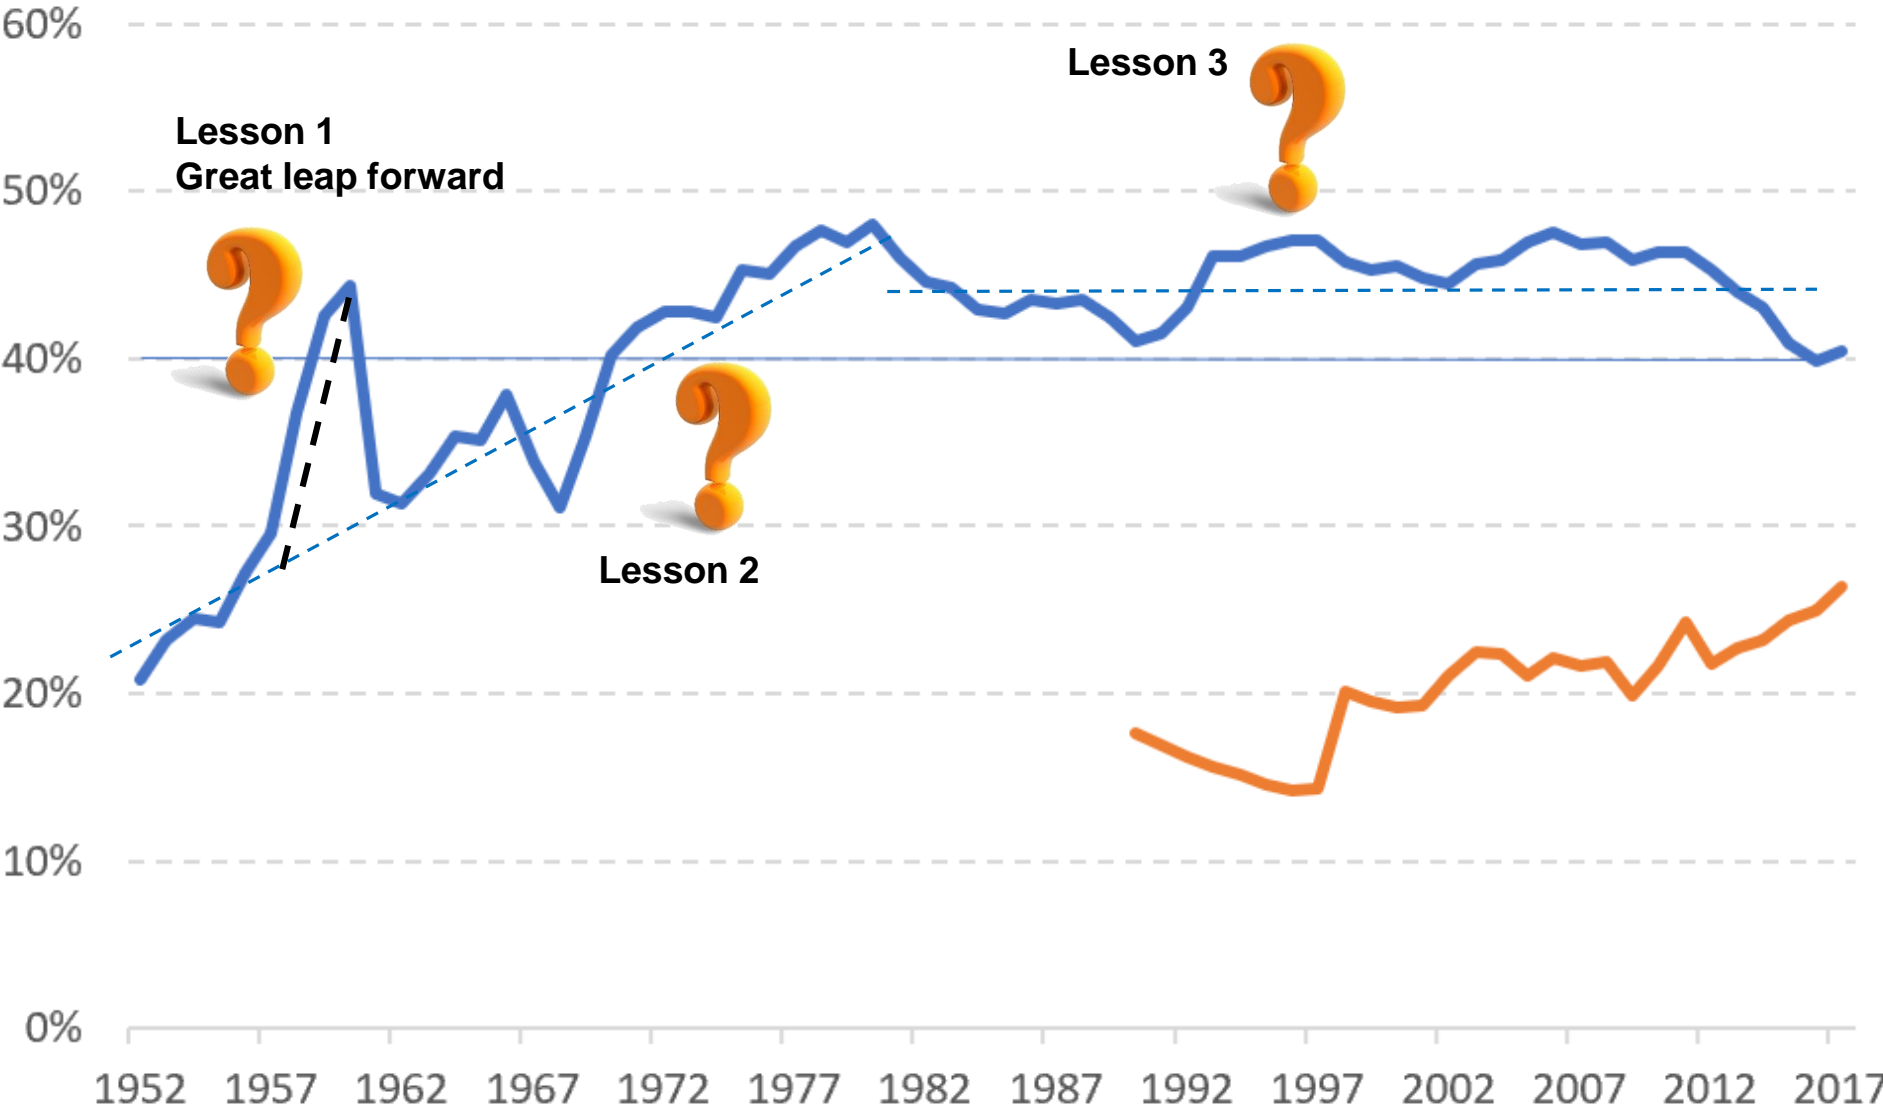

The proportion of industrial sector in total GDP: China and Tanzania

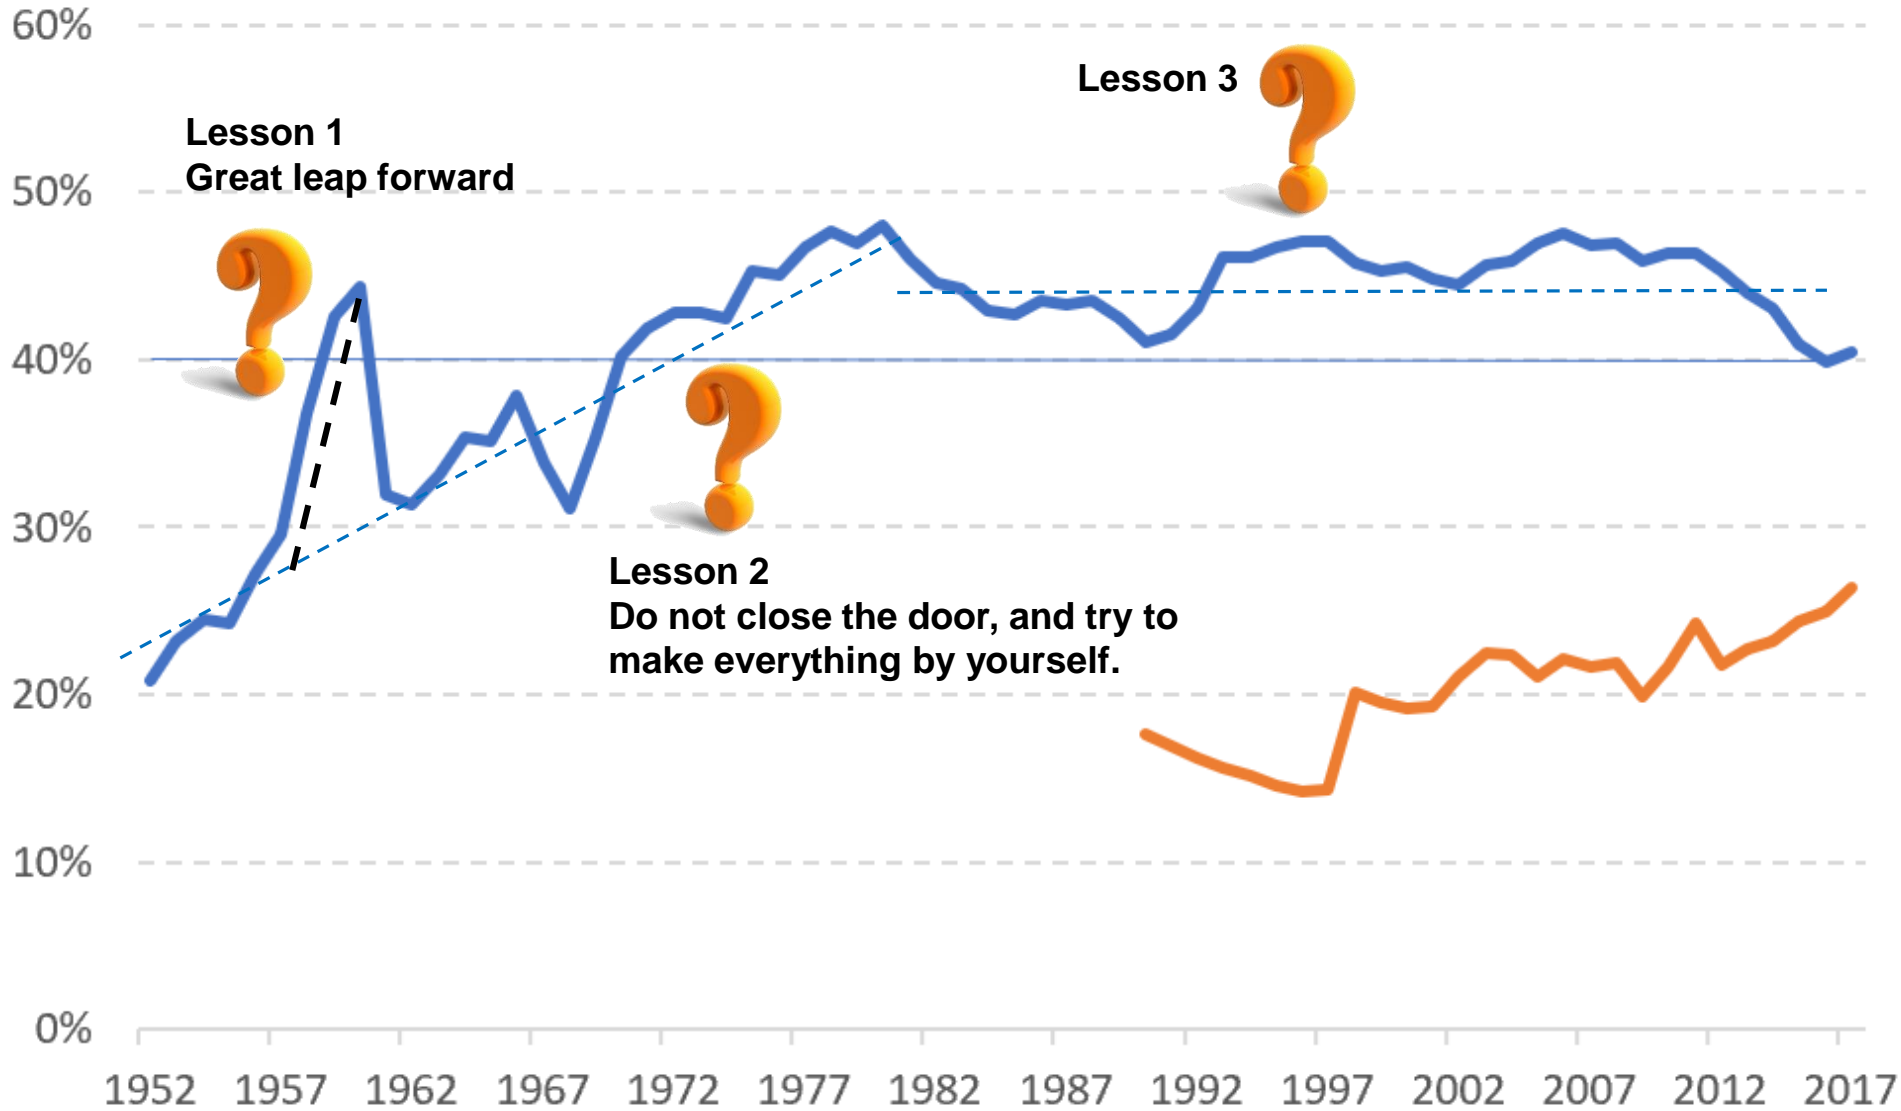

The proportion of industrial sector in total GDP: China and Tanzania

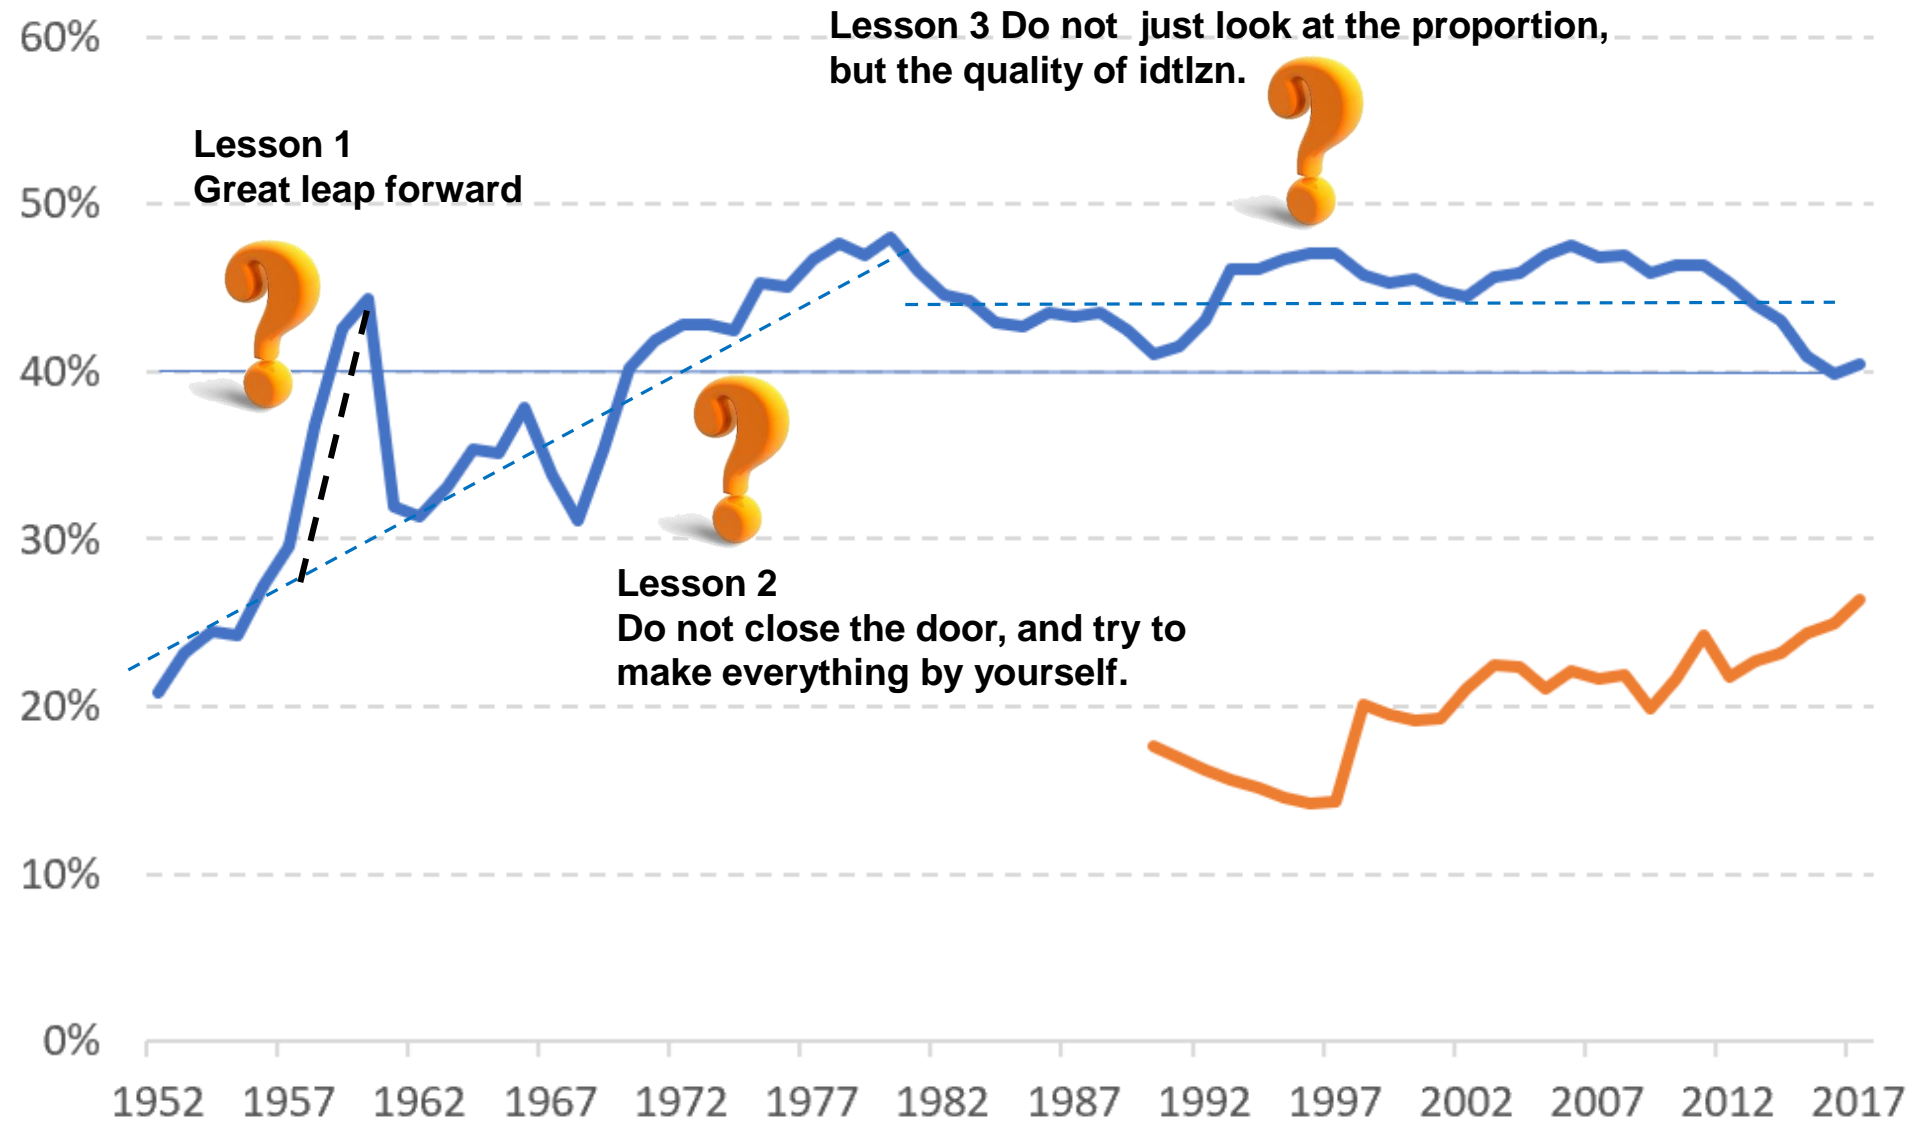

The proportion of industrial sector in total GDP: China and Tanzania

- Back to the problem of “advantage”
- For China,
To launch the B&R I, what is China’s advantage?
- For Tanzania,
What should learn from China, and what need to do ?

The answer is **inclusive tech/indstlztn.**

- US and European countries has more advanced tech, but not inclusive.

What is **inclusive tech/ indstlztn?**

- Not necessarily on the frontier.
- Should be affordable by the poor people.
- A good balance between quality and price.
- IT, infrastructures, manufactures.

Thank you !
