

PhD & MASTERS SCHOLARSHIPS

The Department of Crop Science and Beekeeping Technology at the University of Dar es Salaam, under a COSTECH-sponsored project titled "Climate-Smart Management Strategies for Controlling Yellow Sugarcane Aphids (*Sipha flava* Forbes) Infestation in Tanzanian Rice Cultivation", is pleased to announce research scholarships for students aspiring to pursue Master's and PhD degrees.

Scholarship Overview

- Research Scholarship (fund the research costs only)
- Two Awards (1 MSc in Crop Science and Technology: Specialization in Crop Protection and 1 PhD in Crop Science and Technology: Specialization in Plant Breeding/Biotechnology)
- Postgraduate Studies: expected to complete studies in 2 and 3 years for Masters and PhD respectively
- Join a team of researchers from Tanzania

Eligibility Criteria

- A citizen of Tanzania
- Age not more than 45 years
- Completed BSc in Agriculture, Agronomy, Crop Science, Botany, Crop Production, Biotechnology, Molecular Biology, Plant Breeding and Crop Protection from accredited institutions
- Applicants with admission letters will have an advantage
- Female applicants are highly encouraged to apply

Application Process

Submit Applications to:

Dr. Constantine Busungu

E-mail: busungu.constantine@udsm.ac.tz

copy to sakala2010@yahoo.com

Make sure you indicate the type of scholarship you are applying for in the subject line.

Applicants should include CV, relevant academic credentials and a statement of interest aligned with the research focus areas.

Application Deadline

Application Deadline: 15 January 2025

ONLY shortlisted candidates will be contacted for an interview
