Centre for Banking and Financial Services Research

Blue Finance Forum

Powering Innovation to Transform Tanzania's Fisheries Sector

Join the Forum on “Financing Blue Technologies” to explore funding solutions that unlock the potential of Tanzania's fisheries sector for sustainable development.

The Forum will focus on three key themes:

Blue Technologies Landscape

Overview of existing production, processing, and logistics technologies, policy support, and barriers to adoption.

Innovation & Scale-Up

Promoting startups and digital blue technologies in fisheries and aquaculture through enabling policies and overcoming scaling challenges.

Financing Blue Technology

Exploring financing models, policy frameworks, and opportunities to support technology adoption across the fisheries value chain.

Speakers & exhibitors

Government bodies, regulators, development and financial institutions, digital and blue tech providers, innovators, researchers, and actors across the fisheries and aquaculture value chain.

Library Auditorium
University of Dar es Salaam
Dar es Salaam

11th to 13th June 2025
