UDSM STAFF PUBLICATION IN REPUTABLE JOURNALS

The University Management has been encouraging academic members of staff to publish their scientific journal articles with international reputable publishers such as Taylor and Francis, Elsevier, Springer, Nature, Emerald, SAGE, Wiley, Oxford, Cambridge and Harvard. In adhering to this call most academicians have done their best in publishing extensively in those journals. The University Management would like to recognise excellence in scholarly publications as demonstrated by the following academic members of staff in the University of Dar es Salaam who have published more than 10 journal articles with these reputable publishers and have uploaded their publications into UDSM Research Repository:

S/N	Staff	Unit	Number of Articles
1	Prof. Dev Jani	University of Dar es Salaam Business School	19
2	Prof. Shukrani Manya	School of Mines and Geosciences	18
3	Prof. John F. Machiwa	School of Aquatic Sciences and Fisheries Technology	16
4	Dr. Godlisten Shao	Mkwawa University College of Education	13
5	Prof. Goodluck Charles	University of Dar es Salaam Business School	13
6	Prof. Makenya F. Maboko	School of Mines and Geosciences	12
7	Dr. Chacha Werema	College of Natural and Applied Sciences	12
8	Dr. Henry Ndangalasi	College of Natural and Applied Sciences	11
9	Prof. Charles Lugomela	School of Aquatic Sciences and Fisheries Technology	11
10	Dr. Grace Kinunda	College of Natural and Applied Sciences	11
11	Prof. Wineaster Anderson	University of Dar es Salaam Business School	11

The staff publications are archived in the University Research Repository and can be easily retrieved and disseminated. Additional indicators will be used in future to recognise excellent performance in research and publication including citations, volume of research funding solicited by researcher(s) and research relevance to addressing societal problems.

We congratulate the staff members and encourage more staff to publish their research findings with reputable publishers and upload them in the University Research Repository. This will improve both researchers' dissemination of their work as well as the University visibility.
